2000 HALF MASK

2000 VARIATION

2000 W/ FILTER

FEATURES AND BENEFITS

- Soft and very durable silicone rubber mask body.
- The half mask is available in two sizes, S/M and M/L.
- Exhalation Valve provides easier breathing while reducing heat and moisture build-up.
- Shielded exhalation valve system to protect valve from heat and dust.
- Deep nose bridge and face seal provide a comfortable, secure fit.
- Elasticated, easily adjustable head harness.
- Fast thread filter connection and the variation is approved to EN148-1 standard.
- Reusable — Can be disassembled, cleaned and reused (just dispose of the cartridges/filters when used to capacity).
- Maintenance and cleaning are made simple with very few replacement parts.

PACKAGING

- Individually sealed products to ensure hygiene and excellence in delivery.
- Private Label Service is available.
